

Atollo/b

design by Eurostyling

Atollo/b è un sistema di moduli a cassetto caratterizzato dal frontale in legno arricchito da listelli applicati e da un piano continuo semi incassato. Le spalle e le ante risultano più alte rispetto alla struttura, motivo per il quale fungono anche da maniglia. Nella sua versione /b, Atollo diventa mobile bagno con possibilità di aggiungere una vasca integrata al piano, oppure una bacinella in appoggio.

Atollo/b is a system of drawer modules characterised by a wooden front enriched by applied laths and a continuous top semi-recessed top.

The side panels and doors are higher than the structure, which is why they also function as a handle.

In its /b version, Atollo becomes a bathroom furniture with the possibility of adding a bathtub integrated to the top, or a free-standing basin.
